

BACKGROUND OF INVENTION--OBJECTS AND ADVANTAGES

Accordingly, besides the objects and advantages of the mitten-shape described in my above patent, several objects and advantages of the present invention are as follows:

(a) To provide a baby wipe that covers hand completely, for better cleanliness.

(b) To provide a baby wipe whose production allows for a convenient and sanitary and economical change of shape in the baby wipes that are now being produced.

SUMMARY

In accordance with the present invention a baby wipe comprises a flat body having a mitten-shape, and covers the hand from germs, and protects baby from fingernails. And when turned inside-out , may be used for extra cleaning.

DRAWINGS--FIGURES

Fig. 1 -- show various aspects of baby wipe
supplied with opening for hand.

Fig. 2 -- show mitten-shape with the adjoined edges,
for better cleaning, and convenience.

DRAWINGS--REFERENCE NUMERALS

Fig. 1 -- hand opening

Fig. 2 -- mitten-shape wipe with adjoined edges.

Accordingly, the reader will see that the mitten-shape and adjoined edges, of this invention can be used to sanitarily clean children as well as adults, and when turned inside-out used again for excess cleaning.
